SCHEDULE OF EVENTS

4:30 PM	Ballroom 1	Arrival – Pizza & Refreshments
5:00 PM	Ballroom 1	<p>Welcome</p> <p>Dr Craig Menzemer, Dean, College of Engineering & Polymer Science, The University of Akron</p> <p>Juie Zhao, Assistant Dean, College of Engineering & Polymer Science, The University of Akron</p> <p>Professor Polymer Explores Pressure!</p> <p>John Fellenstein, Content Specialist, Akron Global Polymer Academy, The University of Akron</p>
5:50 PM - 7:30 PM	Ballroom 2+3	<p>Demo Stations</p> <p>ROTATION EVERY 10 MINUTES</p>
7:30 PM	Lobby	Departure

STEM DEMO STATIONS

Demo Station #1	Microscopy & Physics	Microscopy Society of Northeast Ohio (MSNO)
Demo Station #2	Converting Waste Plastics into Useful 3D Printed Structures	The University of Akron School of Polymer Science & Polymer Engineering
Demo Station #3	Geology Rocks!	The University of Akron Association of Women Geoscientists (AWG)
Demo Station #4	Tuning in Radio	Institute of Electrical & Electronics Engineers (IEEE) + Portage County Amateur Radio Service (PCARS)
Demo Station #5	Science Fair	Akron Public Schools
Demo Station #6	Bioinspired Snake Robots	The University of Akron Department of Biology
Demo Station #7	Akronauts Rocket Launcher Station	The University of Akron Akronauts Rocket Design Team
Demo Station #8	Science is EVERYWHERE – from Diapers to M&Ms	Synthomer
Demo Station #9	Engineers for a Sustainable World	The University of Akron Engineers for a Sustainable World
Demo Station #10	Zips Racing	The University of Akron Zips Racing Formula Combustion Design Team
Demo Station #11	Rubber Testing Tensile, Elongation, Rebound	Ohio Rubber Group (ORG)
Demo Station #12	Rubber Raw Materials Latex & Vinegar	Ohio Rubber Group (ORG)
Demo Station #13	Rubber Processing Extruding & Molding	Ohio Rubber Group (ORG)

ACCESS Event Committee

ACCESS Mission

The Mission of ACCESS is to enhance the technical environment in the Akron area through coordination and cooperation with the technical societies, industry and academia. ACCESS provides broad industrial and academic representation and a widely diversified science and technology source. Detached from special interest groups, it offers an excellent opportunity for effective informative public service.

ACCESS Goals

1. To promote interest in science and mathematics in K-12 students
2. To encourage pursuit of careers in science, engineering and technology related disciplines
3. To encourage higher level technical education in local institutions
4. To provide technical career opportunities locally
5. To provide a tie between science, physics and mathematics educators and the technical community

To serve our community, member societies, and students, the ACCESS Event Committee presented – “ACCESS Celebration of STEM” on March 12, 2024. In partnership with The University of Akron College of Engineering & Polymer Science, an evening of STEM activities were presented to 5th and 6th grade Scholars introducing them to the science of discovery with hands-on demonstrations by university students and ACCESS member societies.

80 Akron Public School Scholars were invited to visit 13 demo stations at the Student Union Ballroom 2/3 at The University of Akron after listening to a Welcome from Dean Menzemer and a STEM presentation, “Professor Polymer Explores Pressure!” by John Fellenstein, Content Specialist, Akron Global Polymer Academy, The University of Akron in the Student Union Ballroom 1. After being transported by their school bus, the Scholars enjoyed pizza, Zippy cookies and beverages in Ballroom 1 before the activities began.

This event provided opportunities to the Scholars who may not have the chance to participate in hands-on science and there was no cost to the students. Approximately 57 facilitators from industry, The University of Akron and ACCESS member societies were involved in the Event. The Scholars traveled between each demo station in 10 minute intervals and some additional shorter intervals so that they could participate in every demo station.

ACCESS Member societies are encouraged to participate in the “Celebration of STEM” event by contributing swag to the Scholar’s Backpack Tote Bags which they received, by contributing financial support to the event, by providing a tabletop exhibit of your Society for the Scholars to view, by providing volunteers at the Event, or by leading the Scholar’s group on their designated tour between demo stations. We can change the lives of students by introducing them to STEM concepts and the excitement of science! Please help ACCESS to support their Mission and Goals!
